

**Connect to  
Wellness & Prosperity  
Together.**

### OUR STORY

The Auxe is an audacious and innovative journey to redirect capital and power to Black entrepreneurs who are ready to grow a model for inclusive development and community wealth building. Powered by a one-time philanthropic investment, The Auxe will bring to life a vacant factory transforming it into a vibrant, self-sustaining hub for Black-owned businesses offering health and wellness services to thousands in the community.

## AUX GOALS

**IMPROVE HEALTH** by increasing access to Black-owned businesses providing mental wellness supports, doula services, fitness classes, wellness products and healthy food.

**BUILD SHARED PROSPERITY** by developing a hub for entrepreneurs of color, creating jobs and providing opportunities for community investors.

**STRENGTHEN COMMUNITY** by transforming a vacant factory into a vibrant space where local businesses thrive and community members of all walks gather to eat, shop, learn, celebrate and be well.

### OUR NEED

Why Evanston? Because inequity persists even here. There is a 13-year difference in life expectancy in our historically redlined Black communities. Barriers to opening business persist for established entrepreneurs. It's time to change the script.

### OUR VISION

The Auxe will be home to thriving Black-owned businesses offering an array of holistic wellness services. Our whole community will have access to good food, calm minds, healthy bodies and great conversations.

### OUR INSPIRATION

The Auxe is inspired by the Sherman Phoenix, a Milwaukee hub that is home to 30+ Black-owned businesses. Although only 20% of Black-owned businesses nationally survive the first 18 months, 89% of Sherman Phoenix's founding businesses are still in operation after five years. The Auxe brings this cutting-edge model to the Chicago area.

# \$10M Campaign Goal

## WHY DONATE?

- Promote healing by creating an inclusive community space offering wellness services for physical, mental, financial, spiritual and social wellbeing
- Strengthen entrepreneurship by supporting diverse business owners and providing technical assistance
- Create jobs and training opportunities for residents and young people
- Provide inclusive pathways to community wealth with opportunities for neighbors to directly invest as owners
